

Organic Fertilizer

HOME

SUNSHINE pelletised organic fertilizer is formulated to provide plants with both a quick start and long-term benefits. It is manufactured from composted organic wastes including poultry waste, cocoa waste and solid waste from palm oil industry. Typical NPK composition is 3,3,5 and 5,5,5.

AQUACULTURAL PRODUCTS

[Tea-seed-cake](#)

[Fish Toxicant](#)

[Zeolite\(Aquaculture\)](#)

[Calcium](#)

[Hypochlorite](#)

SUNSHINE pelletised organic fertilizer is recommended for vegetable gardens, annual and perennial flower gardens, ornamental plantings, and all types of container gardening.

AGRICULTURAL PRODUCTS

[Palm Ash](#)

SUNSHINE pelletised organic fertilizer provides a slow release of nutrients as micro-organisms in the soil break the organic material down into an inorganic, water soluble form which the plants can use. The addition of organic material improves soil structure or "workability" immensely. It also vastly improves the water-holding capacities of sandy soils, a distinct advantage in arid climates such as ours.

Key Benefits

LIVESTOCK

INGREDIENTS

[Wheat](#)

[Pollard/Flour](#)

1. **Improvement of physical soil properties**, either directly or by activating living organisms in the soil;

2. better soil structure as a result of soil loosening and crumb stabilization;

3. better water-holding capacity and soil aeration;

4. surface protection by mulch layer.

5. sorption of nutrients by humic acids;

6. supply of nutrients from decomposition of humus and from dissolving action on soil minerals;

7. fixation of nutrients in organic complexes (mainly a negative influence for a shorter or longer period);

8. effects of growth regulators produced in soil (e.g. growth inhibitors accumulating in monocultures, and antibiotics protecting against some bacterial diseases).

Suggested application

Types	Rate	Direction
Initial fertiling soil	25% fertilizer + 75% soil	Mix with soil
Potted plant	50 g per week	Spread evening beside plant
New fruit tree	250 g per week	Spread evening beside plant
Vegetable	100 g per 2 week	Spread evening beside plant

Packaging infomation

SUNSHINE organic fertilizer is packed in the following types

- 40 kg new poly-woven bag for commercial users
20' container = 18 MT (450 bags x 40 kg)
- 1 kg double plastic thermal seal packs for home user
